## *Greetings from our team at Anchor 1 Angus*

Welcome once again, fellow beef producers, valued customers, family & friends, to our 17th Annual Angus bull production sale. Another year has passed and as we reflect on the growth and changes over the last months, we can be proud of the work done and improvements made. It truly is amazing what can be accomplished in the time it takes for the earth to make one full trip around the sun. The moments are precious, and although the years sometimes seem long, they are short, so soak them in. With now too many consecutive devastating drought years, dare I say, behind us, and most possibly the hottest, driest spring on record (2023) and cattle numbers as low as many of us have ever witnessed them, we as cow calf producers are truly in a position where we are seeing our hard work and perseverance pay off. Cattle prices, in my opinion, are where they need to be today with the always rising cost of farming and the endless work that goes into delivering our final product. Our hats go off to everyone that found a way to stick it out through the toughest years and we hope everyone can enjoy a prosperous term moving forward as we continue to work to rebuild cattle herds across the country.

It is with great pride that we bring before you our class of 2024 bull sale graduates and it is a truly uniform and powerful lineup we have on offer once again this year. As always here at Anchor 1 Angus we stand behind our bulls to the fullest as we feel we are only properly doing our job as producers if our customers are satisfied and cattle are getting bred. Our catalog this year consists of our elite top 40% of our yearling 2023 born bull calf crop as well as 25 specially held, heavily sorted and closely analyzed 2 Year Old prospects. A dominant percentage of our bulls on offer are bred for calving ease and are compatible to service 1st calf heifers. A smaller minority of high performance, powerhouse bulls, still heavily influenced with calving ease in mind, will satisfy the needs of your cow herds.

Raising cattle has and will always be our passion at Anchor 1 and we strongly believe that behind every good bull should be a functionally correct, strong producing cow family and after 17 years in this business we would be more than happy to tour anyone through our cowherd as we are very proud with the direction we are heading in today's industry.

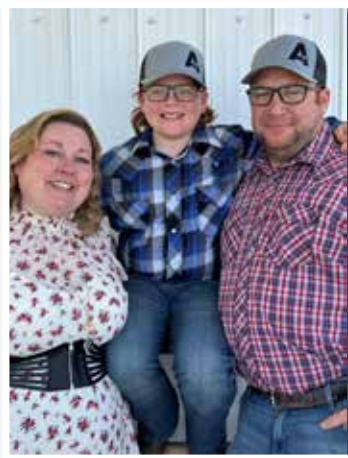

We hope and trust that everyone has had a really great winter and that feed supply is abundant. With calving well underway in some operations, and others just gearing up to get the ball rolling, we truly do wish you all the best as you work tirelessly each day to achieve your personal goals.

Our Anchor 1 family is doing well and our youth are growing each year and starting to become more involved with the animals and our operation. We once again apologize for the late arrival of our catalog and can't wait until we have all those extra hands at full force to make calving and catalog preparations run smoothly with all hands on deck.

**Important Note:** We are once again highly anticipating your evaluation of our bulls and we want to invite you all to join us at the ranch for our open house viewing of our bulls Thursday April 11th, 2024 from 10:00am-7:00pm where our bulls will be penned up in sire groups for easy viewing. Hard copy catalogs and weight and scrotal sheets for the bulls will be available for pickup at the bull pens. We will also be present at the bull pens to answer any questions you might have and we look forward to catching up with you. The bulls will also be penned up on sale day, Saturday April 13, 2024 from 9:30am to 7:00pm and can be picked up as soon as the sale concludes.

On behalf of our crew at Anchor 1 we would like to say a HUGE thank you to our past customers for your continued support. Each year we look forward to meeting and helping new customers and repeat customers select bulls that are suitable for their needs. Please keep in mind that our bull sale videos are available for viewing online over the next couple of weeks and can be found on our website [www.anchor1angus.com](http://www.anchor1angus.com) as well as on [cattlevideos.ca](http://cattlevideos.ca). We look forward to seeing all of you and catching up on things over the next couple of weeks, until then, take care and be safe.

The bull feeding program is built to maximize forage utilization and gut health; they are developed on grass with their moms on a strict mineral program. All the forages are sampled and analyzed to ensure quality forages are used. Once the calves are weaned, they are slowly moved onto a balanced TMR.

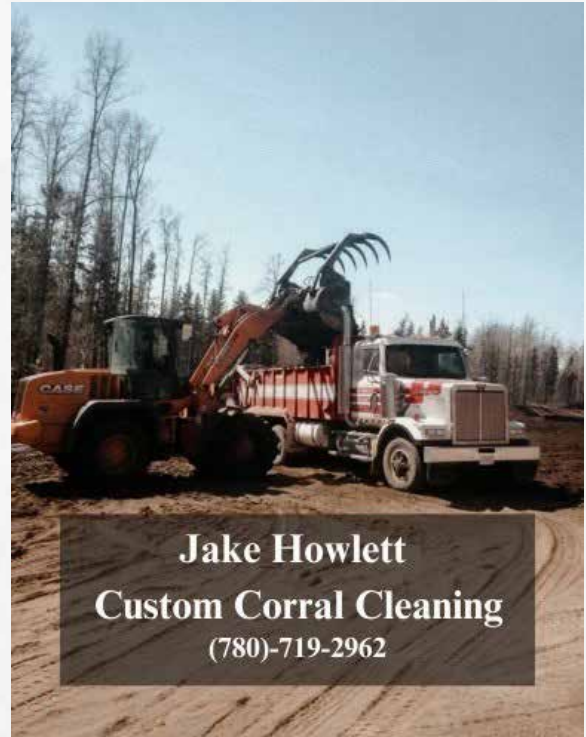

The bulls are challenged with a forage-based TMR to help them develop and express their genetic potential. Matching suitable protein sources with proper starch is key to promoting lean muscle growth. Organic minerals are used to ensure proper immune function and overall health. If you have any questions about the nutrition program, please feel free to reach out. Buy with confidence knowing the bulls have been developed on a balanced nutrition program. Best of luck on sale day!

365 days have passed and we now find ourselves getting ready to host our 17th Bull Sale! We are blessed to have the most wonderful friends, family members and extended family that help us each and every year, both on the big day and during all of the preparation leading up to it. We would like to say a HUGE thank you to Kevin, Wendy, Tenielle, Trent, Joe, Alexcene, Xandra, Colten, Cole, Jack, Troy, Tayden, Keegan, Cantrell, Tyler and Zarley.

A Great Big Thank You to the Aunts, our very own "Gator" and special friends that help us with the lunch and make sure we get everyone fed!! We are SO grateful for all of you and lucky to have each of you in our lives, thank you from the bottom of our hearts!

### *Our Farm Employee Thank you!!*

We would like to give a HUGE shout out and Thank You to 3 very important people at Anchor 1 Angus.

Alexcene Hardy, Joe Howlett and Xandra Bownes have spent many hours from December to April feeding cows, cleaning pens, thawing watering bowls, and the list goes on. Whether helping with the day to day chores or pitching in when extra work or duties arise, we greatly appreciate them being there to tackle each challenge!

Alexcene is a reliable worker, who arrives early each morning. Her love of animals is evident in the way she works with them. She enjoys operating the farm machinery and has a remarkable memory for cattle numbers, which often comes in handy. When she isn't busy at Anchor 1 Angus she is tending to her own animals and keeping busy with her young family. Thank you for your dedication and support through the last couple of hard seasons.

Joe, is handy on any piece of equipment and always ready to fill in and get a job done. He is a jack of many trades and has a large skill set to offer as he works. We appreciate him coming to help us out again this winter, especially since he always has a few other jobs on the go, not to mention his own herd to take care of. He's the proud papa of two sweet kiddos and they definitely keep him busy as well! Thank you for giving us your time Joe, we know it's precious!

Xandra's ambition and work ethic are something to be commended. She is consistently looking for ways to fill her nights when the calves are coming slowly and we are VERY grateful for the many extra things she does to help out around the farm without ever being asked. Thanks for being such an incredible asset to our operation!

Thank you SO very much from The Geingers and The Bensons at Anchor 1 Angus!

2023 Sale Customers

## Terms & Conditions

**TERMS** The terms of the sale are cash or cheque payable at par at sale location unless satisfactory credit arrangements have been made previous to the sale. The right of property shall not pass until after settlement is made.

**BID** Every animal consigned to the sale must be sold by auction. No private sales will be allowed except as otherwise provided for in the terms and conditions. No by-bidding will be permitted. Each animal will be sold to the highest bidder.

**DISPUTES** In cases of disputes, bidding will be reopened between the parties involved. If no further bid is made the buyer will be the person from whom the auctioneer accepted the last bid. The auctioneer's decision in such matters will be final.

**PURCHASER'S RISK** Each animal becomes the risk of the purchaser as soon as sold. Animals will be cared for at the purchaser's risk for a reasonable time.

**ANNOUNCEMENTS** from the auction block will take precedence over printed matter in the catalogue. Buyers are therefore cautioned to pay attention to any such announcements.

**CERTIFICATE OF REGISTRY** The proper Registration or Recordation paper, as the case may be, will be duly transferred and furnished to the buyer for each animal after settlement has been made.

**SHIPPING** Assistance will be given in making shipment after the sale but no risk is assumed by Sales Management or Seller. Expenses incurred are the responsibility of the purchaser. Purchasers are requested to furnish shipping instructions when making settlement.

**GUARANTEE** All animals will carry standard breeding guarantee as specified by the Canadian Angus Association. At no time shall the seller's liability exceed the purchased price of the animal.

**EXCEPTION TO GUARANTEE** In cases where the animal is subjected to any hormonal or surgical reproduction techniques after the sale, the guarantee shall be null and void.

**ACCIDENTS** Although every precaution will be taken to protect the safety and comfort of buyers, neither the Sales Management, auctioneer, or Association assumes any responsibility in this matter and disclaims any liability legal or otherwise in the event of accident or loss of property.

**RIGHTS AND OBLIGATIONS** The above terms and conditions of the sale shall constitute a contract between the buyer and the seller and be equally binding to both. Resale of animals following purchase in this sale shall constitute a separate transaction and the rights and obligations of the two parties connected thereto are not covered by the terms and conditions of this sale.
